

## Job Description

---

### **Behavior Consultant (ABA) (Los Angeles)**

Special Needs Network, Inc. (SNN) is a nonprofit grassroots organization responding to the crisis of autism and other developmental disabilities in underserved communities. Our long list of programs and campaigns address issues from both a top-down approach -- by changing government legislation; and bottom-up -- by collaborating directly with parents, caretakers, and healthcare professionals who work with children with developmental disabilities.

Special Needs Network- Applied Behavior Analysis (SNN-ABA) is currently seeking a full time Behavior Consultant to join our team of high-quality clinical services.

### **Behavior Consultant Summary:**

This position will provide quality, program management of discipline-specific treatment for children with developmental delays, disabilities, and autism spectrum disorders (ASD).

Basic Responsibilities:• The Behavior Consultant will monitor the development of children in home, the community and/or other natural settings, • Supervise Behavior Technicians who provide 1:1 specialized behavior intervention services to children, and parent education, according to goals described in the treatment plan,• Overlap with the Board Certified Behavioral Analyst (BCBA) and Behavior Technicians (may include some direct therapist hours),• Serve as liaison between participants and SNN-ABA communicate concerns to BCBA, • Ensure effective communication between all support team members,• Responsible for accurate documentation, reports and program records,• Lead/attend meetings and conduct on-going staff trainings. Qualifications:• Master's degree from an accredited college or university with a concentration in early childhood education/development, early childhood special education, special education, or psychology. • Two (2) years of professional experience working with children with autism spectrum disorders (ASD). • Knowledgeable of evidence-based practices and scientifically-validated methodologies and approaches found to benefit children with ASD; familiar with current research findings. • Familiar with the field and approaches of early intervention based on the science of Applied Behavior Analysis. • Competent in employing and directing behavior analytic methodologies. • Strong clinical, administrative, and leadership skills; customer service orientated and professional. • Demonstrate good judgment, decision-making, and communication skills with a variety of individuals and groups. Exercise discretion and maintain confidentiality. • Must relate well to children and their families. • Very good working knowledge in all applicable computer programs (Microsoft Office). • Valid CPR certification. • Ability to pass background/fingerprint clearance, health screenings and provide/obtain immunizations. • Reliable transportation, proof of valid California driver's license, safe driving record, proper auto insurance and vehicle registration. Some travel required in assigned area. • Benefits Package (Full time employees):• Competitive Pay • Paid Vacation • Paid Sick time •
